

ELECT 2022 Banner with Image Background Component Template

Description: Full-width banner with image in the background and text area floating on right or left. Headline, optional text and optional button. If button is not used, a link can be applied to entire banner. Used to highlight important text or concepts such as the mission statement.

Page Usage: Homepage and anywhere throughout site where banners are needed

Quantity: as needed. Usually no more than one of this type of content on a page.

Placement: In order in list of content.

Notes: When selecting and preparing a background image, remember that a horizontal image with a ratio of about 1 to 2.5 (height to width) will be needed. Image should be appropriate for use as a background, with darker or subdued tones that will allow the floating text area to stand out.

Colors should be selected for the Headline and Text, as well as the Button. Use color sparingly, and ensure that selected colors provide sufficient contrast.

Instructions: A visual guide to filling out the template is on the following page. This is a stand-alone template and does not pull in additional content.

Name is also the headline of the banner, so type the banner headline in here

Select from in-theme headline colors

Select from in-theme text colors

Banner text

Select Background Image. Should be about 1h:2.5w ratio with maximum 2000px width.

Make sure the path/* formatter is selected

Default text box alignment on desktop is LEFT – click this checkbox if you want a right-aligned text box.

Select from list of in-theme colors for button background

Select page for button link

Enter button text. If no text is entered, it will be assumed that button is not being used, and the button will not render.

Select from in-theme text colors

(Optional) if not using a button, you can select a link for the entire banner below. Do not use both a button and an all-banner link.
