

ELECT 2022 Content with Alert Component Template

Page Usage: throughout ELECT site

Quantity: varies

Placement: on any ELECT page.

Info: A content component that includes an alert box. This is a stand-alone component and does not import content from another section.

Instructions: A visual guide to filling out the template is on the next page. Note the following:

- 1) Optionally use a small icon either before, or after, the button text. Do not fill out both fields.
- 2) If you do one use a button in the alert box, you can set a link for the whole alert box. Do not attempt to use the button as well as a link on the entire alert box.
